## ITALY, RUSSIA, & GANGSTERS

Russia is basically a proxy of Italy which is heavily communistic. Russia redeveloped their communist government into a facade of a parliamentary republic ran by former communist mobsters who use violence, threats, bribery, blackmail, and murder to control. This is exactly what Italy is. They reformatted their communist and fascist parties into social democracies which are run by mobsters like Berlusconi. Italian crime groups like Cosa Nostra, Camorra, and Ndrangheta collectively make at least a half of trillion per year on a

global scale. Don Fabrizio Massimo Brancaccio the Prince of Triggiano is a top authority over Italy and Russia through organized crime and militants. Jesuits were founders of modern communism known as Jesuit Reductions. Mario Draghi was Jesuit educated at the Massimo's Massimiliano Massimo Institute and he was president of the EU bank for a decade before recently becoming Prime Minister of Italy.

Prince Fabrizio's friend the former Russian speaking head of Italian intelligence Giampiero Massolo who worked at the embassy of Moscow is the head of Fincantieri a ship building company in contract with the Russian government in building submarines. Prince Carlo Massimo is the head of the Italian Knights of Malta which Putin serves through Prince Albert II of Monaco a Knight of Malta. Monte Carlo is a primary headquarters for both the Russian Mafia and the Sicilian Mafia. This is well documented. Don Fabrizio Massimo Brancaccio is the primary owner of the Sicilian Mafia through the Graviano mafia clan of hitmen located in Brancaccio area of Palermo, Sicily ruled by Don Fabrizio's relatives the Brancaccios who merged with the Roman Massimos. The Gravianos take their orders from Rome not Sicily and that has been documented through investigations. Russian and Italian criminals are known to work together including in their WhiteRock stock market scheme with Felix Sater a Russian mobster and associate of Donald Trump. More recently the Russian Nikitin along with the Italians Villone and Caparini were charged with violating United States sanctions on Russia along with charges of wire fraud and money laundering.

The Massimos are interconnected with the Gaetanis through marriage with the Lucchesis and the Gaetanis are married with the Gherardescas who married with the Russian Romanov branch who settled in Italy. The Cavazzos are married with Russian royalty. The Borgheses founded the Bank of the Holy Spirit which absorbed into UniCredit and the Massimos relatives the Gabriellis which the Massimos directly inherited from founded Banco di Roma which absorbed into Unicredit. UniCredit has a bank branch in Moscow.
